Subject: Re: Today's Activities

So to be clear.

Eric is public viewer lead for all response activities
Burgo is ops viewer lead for all response activities.

I know START is working all sides, I'd like to know who the POC for Eric and the POC for burgo.

If we can't define this today, that's fair, but we need clear POCs going forward.

Not to be an ICS hardass, but It would be helpful to see some data ops 204s, with clear tasks and leads. It should help accountability and our organization moving forward.

All that being said, all of you amaze me with you commitment and endurance.

Cheers,

Randy B. Nattis
Federal On Scene Coordinator

We got you covered Marty. You are a workhorse bud.
The Ops viewer has all the data the field folks need. If there are ops related functionality please pass those requests to Dan burgo. I am focused on getting the public viewer up

Fellow OSCs working the response,

I fully realize I am spent. Eric and Burgo are on data and Christine took over the EU.

Last thing I must do is get Way squared away. When the viewer goes live there will not be much data on it. I've coordinated with Craig Myers and we are spinning up to do what we can. He has a lot of data that just needs to be organized.

I tell you this now because I may need your help later to expedite a few things.
